Machine description

Supplier

H-TC1520TBC Pneumatic turnover crates Hot Stamping Machine//Structure	
Working table	Contilever working table , size:200*300mm.
Stamping Head drive	Pneumatic drive
Foil collecting method	Motor-drive , Collecting time adjustable
Press adjustment	Up-down of working table
Temperature control	Heating tube heat up, Automatically temperature controlling, temperature free setting
Foil collecting	Motor drive, Automatically collecting
Stamping Plate size	150*200mm.
H-TC1520TBC Pneumatic Crates hot stamping machine //Usage and characters	
Guide	<ul style="list-style-type: none"> • <u>Stamping Foil</u> feed in automatic and automatically temperature controlling; • Weight pressure ensure more big area stamping . Suitable for gilding Different Container , waste bin, PET film, House equipment Panel; • Because of large pressure. widely used in the process of Gilding ,Bronzing , Impression, Embossing , Leather embossing etc; • Full-steel structure ensure stabilization Bronzing action, • Adjustable working table to make pressure between working table and object. • Flat-object stamping machine with large-pressure, Suitable for stamping on wooden gift; • Pneumatic drive, pressure large; • Suitable for various pass container; • All kinds of plastics box; • Waste bin; Beer case; basket case.;
Application fields	<ul style="list-style-type: none"> • Trash Box waste bin gilt;

- Beverage, food, industrial turnover box gilt;
- Products of the gilt frame of mind;
- Gilt shell household appliances;
- File cabinets, file box gilt.

H-TC1520TBC Pneumatic Hot Stamping Machine //Parameter

Technical parameters	<p>H-TC1520TBC precision hot stamping Machine For Crates</p> <ul style="list-style-type: none"> • Hot plate area:150×200 mm • Working table area:200 ×300mm • Max printing pressure:1,000 - 1500 Kg • Up and down distance:100mm • Heat wattage:1200W • Foil in feed: Motor Drive • Temperature adjustment:0-300oC .
Works supply	<ul style="list-style-type: none"> • 110V-220VPower supply; • 5-7Bar compress air
Package list	<ul style="list-style-type: none"> • Package size: 1.250*1.190*1.720m; • Gross weight: 380kg; • CBM: 2.5585
H.S.Code	8443198000
Certificate	CE

Supplier 

H-TC1520TBC Pneumatic crates hot stamping machine //Advantage

Function	<ul style="list-style-type: none"> • Workbench using a special cantilever structure, which will help to place different types of turnover box; • Table can be up and down, the precision adjustment, to facilitate the adjustment of the precise location of t • Table lifting screw adjustment, simple and convenient; • Relays for process control, stable operation, easy maintenance; • The use of advanced temperature control system, the temperature can be set freely, high precision temper control, with automatic temperature control; • leveraged cylinder pressure, the pressure is uniform and strong; • The basic parameters of the hot stamping process; temperature, pressure, hot pressure, the rolls of time in accordance with the process requirements of the flexible adjustment; • Motor to control the delivery of the gold foil paper, resin length can be flexibly adjusted according to the size of the stamping area; • Using high strength steel, gilt plate and table, has a very high flatness; • Heating tube for heating, heat supply is stable, easy to replace
